TRADITIONAL FOOD (Fanesca)

Today I am holding this traditional wooden spoon, which is the tool we use to stir the fanesca in a huge pot. Preparing this Easter soup is a beautiful tradition that my family is used to following every year during Holy Week.

My mother coordinates the recipe, so we are used to spending hours chopping vegetables and peeling twelve different grains together. At first, it was very hard for me to wake up early on a holiday, but I got used to the early morning kitchen rush after a few years. I got used to mashing the pumpkin as well, because it gives the soup its perfect texture.

We also fry sweet plantains and empanadas to decorate each bowl. My cousins come to help prepare the table too, making the house full of laughter. This tradition helps us connect as a family, and I hope future generations enjoy it as well.
